Carleton University

Azrieli School of Architecture
Bachelors of Architectural Studies
Ottawa, Canada
Sept 2016 - May 2020

Welham Girls’ School

Dehradun, India
April 2008 - May 2016

SKILLS

3D

Rhino
Revit
SketchUp
Maya
Lumion
Vray
D5
Unreal Engine
Grasshopper
Navisworks
Twinmotion

2D

AutoCAD
Photoshop
Illustrator
InDesign
Lightroom
Procreate
Morpholio
Adobe Frescoe

PROFILE

Architectural designer with around three years of international and Canadian experience in residential, commercial and landscaping projects. Proficient in BIM modelling on Revit, 3D modelling using numerous software, and hyper-realistic visualization with V-Ray/Lumion. Bonus experience includes set and interior design. I am highly passionate about sustainable design and experimenting with local materials. I enjoy blending contemporary styles with vernacular flavors to create unique design solutions.

EXPERIENCE

Architectural Intern | CCE Engineering

September 2023 - present (Toronto, Canada)

- **OBC compliant design implementation:** Utilised Revit to create detailed BIM models of residential buildings that adhere to the OBC and meticulously reviewed intricate drawing details to ensure compliance with the OBC.
- **Proficient use of BIM software:** Created custom Revit families of doors, windows and other openings as per design requirements.
- **Comprehension of survey drawings:** Drafted detailed site plans on Autocad and Revit with the help of survey drawings that were used for further develi.

Architectural Designer | Fialka Architects

August 2020 - August 2023 (Chittagong, Bangladesh)

- **Proficient use of BIM software:** Created various BIM models using Revit, Dynamo, and Navisworks, along with architectural working drawings
- **Site analysis and sustainability:** Conducted on-site visits with architects and designers, performed solar, wind, and thermal studies and incorporated passive design techniques in numerous projects.
- **3D modeling and visualization:** Developed conceptual models using Rhino, Grasshopper and SketchUp and generated hyper-realistic renders and walk-through animations using V-Ray, Lumion and Twinmotion.
- **Client engagement and collaboration:** Effectively communicated design narratives using hand sketches and conceptual models.
- **Contributed to a diverse selection of projects:** Engaged in projects spanning retrofit, commercial, residential, and landscape.

Interior Design and Visualization

June 2021 - present (freelance)

- **Integrated sustainability:** Laid emphasis on sustainability as a criteria for choosing materials and furniture for spaces.
- **Client-centric collaboration:** Collaborated closely with interior designers and clients in order to translate their visions into compelling yet functional visual spaces.
- **Budget-concious execution:** Demonstrated effective project management, balancing a creative vision with a practical budget for cost effective interior design solutions.
- **3D modeling and visualization:** Developed conceptual and hyper-realistic renders and models using Rhino, V-Ray and other visualization tools and created custom materials and textures.
- **Contributed to a diverse selection of projects:** Participated in transforming various types of spaces including apartments, studios, offices and innovative roof terraces.

3D Artist and Set Designer | Theme Weavers

June 2022 - August 2022 (Mumbai, India)

FDCI India Couture Week - JJ Valaya

- Played a key role in set and runway design for the 30th anniversary celebration of JJ Valaya, an iconic Indian luxury fashion house, aligning closely to the theme rooted in traditional Indian arts.
- Partnered with fashion designer JJ Valaya and his team, contributing to detailed working drawings and creating hyper-realistic 3D models and renders for a visually impactful fashion show.

Wedding at Alila Fort Bishangarh

- Partnered closely with event planners to actualize their set design concepts, delivering realistic models and renders that enhance the visual impact of the overall design.
- Created custom materials on V-Ray for various fabrics by replicating real life samples chosen by the clients in order to ensure an exact replication of their envisioned design concepts.

Achitectural Student Intern | Fialka Architects

December 2018 - January 2019 (Chittagong, Bangladesh)

- **Design support and development:** Contributed to schematic drawings, both hand sketches and hybrid digital conceptual drawings and 3D models under the guidance of senior architects.
- **Project documentation and coordination:** Supported the team in compiling project documents including plans, sections and elevations.
- **Research and analysis:** Conducted research on architectural trends, materials and foreign building codes, while conducting site analysis and contributing to the development of innovative solutions.
